ADVANTIGRO Enables Potatoes to Withstand Harsh Early Season Conditions

Effect of ADVANTIGRO on Clearwater Russet Potatoes

Location: Warden, WA – 2018

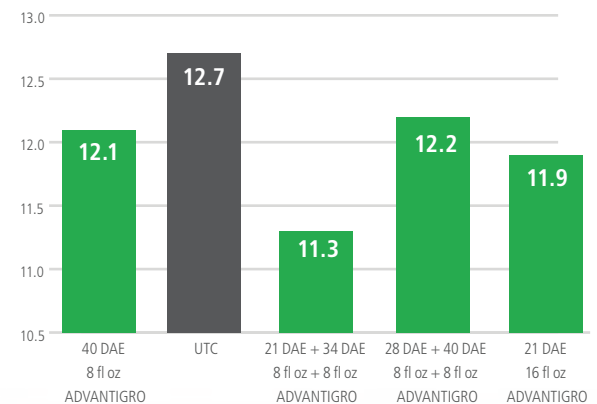

Trial: CBCR18P101NB401

CWT/Acre

*No statistical analysis performed.

Tubers/Plant

Key Learnings:

- No physiological issues were visually observed after applications of ADVANTIGRO were made.
- High rate of ADVANTIGRO applied at earlier timing gave 2.3 tons higher versus UTC.
